

## ABOUT AQUIARRA®

AQUIARRA® is a Philippine-based company determined to earn your trust through providing excellent dentistry. We offer affordable and effective orthodontic treatment based on advanced technology, esthetic design, and comfortable alignment technique. Our aligners are not just custom-made to fit snugly on your teeth, but also customized to fit your individual needs and goals as they work to gradually straighten your teeth as you wear them with each set of aligners moving your teeth bit by bit to bring you closer to the smile of your dreams.

## WHY CHOOSE AQUIARRA®

### Invisible Aligners

- Invisible
- Removable
- More comfortable
- Easy to clean and maintain
- No diet restrictions

### Metal Braces

- Visible
- Fixed
- More painful due to brackets and wires
- Brushing and flossing require more effort
- Many diet restrictions

AQUIARRA®  
Your Smile, Your Choice

# Smile without inhibition.

Straighten your teeth invisibly and affordably with AQUIARRA® aligners.

## HOW IT WORKS

- Visit our website to find an Aquiarra certified doctor near you, who will provide all the details, and answer all your queries about invisible aligners.
- Your doctor will take intraoral scan or impressions and x-rays of your teeth to send to Aquiarra along with submission of properly filled diagnostic and treatment form.
- Aquiarra will provide you a digital set-up with the help of which you can envision the final outcome of the treatment.
- Once your doctor gives the approval, we start manufacturing your aligners, which are sent within two weeks.
- Wear your aligners in sequence as directed by your doctor. The picture below illustrates how the aligners move your teeth gradually and effectively to give you a perfect smile!

## FAQs

### What is an aligner?

An aligner is a custom-made medical grade clear plastic tray that fits over your teeth and straightens them

### Is aligner a new device?

No, millions of people have already been treated with aligners, and the number is increasing every day.

### I am wearing braces, can I switch to aligners?

Yes, please consult an Aquiarra certified doctor for further details.

### How many aligners are required to straighten my teeth?

It depends on the severity of the problem. Your doctor can provide the approximate number of aligners that will be needed.

### Is there any age limit for aligner treatment?

It is an adult orthodontic treatment; hence, there is no age limit.

### How frequent do I need to visit my doctor during treatment?

Your number of visits are significantly reduced as it eliminates laborious work of changing wires and brackets

### How much does it cost?

Prices would vary depending on the severity of the problem. Your doctor will quote the exact cost for your case.
